Merely Email Is Not Enough

SCALIX is More than Email

Enhance Your Email Capabilities

Improve communication efficiency and increase collaboration among your workers with Scalix, a Microsoft Exchange-like e-mail and group calendar server. Deliver all the functionality of Exchange with Outlook compatibility at a lower per user cost.

WHAT is SCALIX?

Scalix is designed to meet enterprises' needs of a robust, feature-rich messaging and collaboration platform. Scalix takes the cost and complexity out of administration and upgrades, and gives you the freedom to choose the infrastructure, applications, and desktops that best suit your business needs.

KEY FEATURES & BENEFITS

- * Share Folder/Calendar/Contacts among your colleagues
- * Group Scheduling with Free or Busy Lookup
- * Public Folders
- * Mailbox Delegation
- * Reduce Cost and Complexity

REDUCE COST & COMPLEXITY

- * Scalix supports 50-100% more users per server than Exchange
- * Flexible licensing scheme
- * Comprehensive yet easy Scalix Admin Console

ANYWHERE ACCESS

Access your email, calendars, contacts, files & documents wherever you are.

7 MAJOR ADVANTAGES of SCALIX

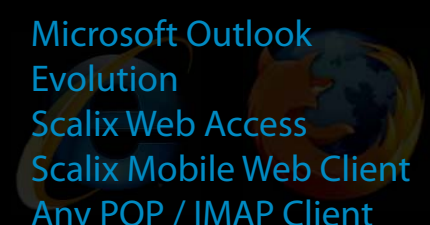

- More reliable email and calendaring
- Linux platform benefits of reliability, security, price & performance
- Highly scalable and resilient Scalix message store that never corrupts
- Clients of choice: Outlook / Evolution / Scalix Web Access / Scalix Mobile Web
- Lights-out email administration
- Avoid the direct costs of Exchange and better yet, avoid the hidden costs
- Independence from vendor, licensing and technology lock-in

THREE TIME WINNER
